# Quick Installation Guide for Camera Plate C2

Camera Plate C2 works for cameras compatible with Canon BG-E3, BG-E5, BG-E8 or BG-E9. These include Canon 60D, 350D, 400D, 450D, 500D, 550D, 600D, 1000D.

M3 Sockets for installing Optional Safety Stop Screws

Optional Feature:
If the QR clamp being used does not have a safety pin, you can use the M3 Safety Stop Screws. Install the M3 screws at each end of plate making sure to use the black plastic washers as spacer.

Anti-twisting Pin   1/4" screw

Install the anti-twisting pin to the appropriate position according to the number prescribed below. Then carefully align it to the corresponding socket at the camera base. Tighten the 1/4" screw slowly while keeping the pin in aligment. Be careful not to overtighten. Check that the camera plate sits snugly to the camera base when finished.

Position 1:
cameras compatible with BG-E9 e.g. Canon 60D.
